

To the President and Members of the Constitutional Convention,

GENTLEMEN :

The undersigned respectfully represent that the practical working of the present legislation, and decisions of Supreme Court based thereon, regarding the rights of Mechanics, Material Men and Laborers to a lien for their labor and material furnished is such that those who in a measure depend upon such law for just protection fail in nearly all cases to obtain it, because of the inefficient working of said law.

Wherefore we pray you to declare in our Organic Law the right of every Mechanic, Material Man, and Laborer to a perfect lien on the thing whereon his labor has been expended or for which his materials have been furnished.

Moreover, we would state that we would be satisfied with Amendment No. 167, introduced by Mr. Van Dyke on October 10th, 1878, and read and referred to Committee on Miscellaneous Subjects, as follows :

“MECHANICS’ LIENS.

“ARTICLE —.

“SECTION —. Mechanics, Material Men, Artisans and Laborers of every class shall have a lien upon the property on which they have bestowed labor or furnished materials, for the value of such labor done and materials furnished, and the Legislature shall provide by law for the speedy and efficient enforcement of said liens.”

And your Petitioners will ever pray.
